Hi Suketu,

Trust you are doing well.

I would like to personally thank you on the Azure Training Program conducted in Bangalore Recently.

The Training material covered wide variety of topics covered on Azure platform were very useful. Thanks for being diligently helping us on the labs wherever we were struck. The comparison and details are very helpful in getting the Industry experience on the platform. Stand out for me was the machine learning content explanation and different real time scenarios explained by you.

Thanks for accommodating the Databricks content within short time. Appreciate the help for providing the azure account access for running through the Databricks labs on the last day.

Thanks again and definitely will keep bothering you on the Azure platform related questions in future.

Regards,

Venkat Gani
